## Overview

---

What is a Solax X3 hybrid inverter?

Ready for the Future. The SolaX X3-Hybrid-15.0D is a high-performance 15kW three-phase hybrid inverter designed for advanced solar + storage applications in residential and small commercial settings. With industry-leading features and smart energy management, it empowers users to take full control of their energy future.

What is a 701213 solar inverter?

The 701213 (ASW15K LT-G2-A) is our benchmark three-phase solar inverter for small, decentralized residential, commercial, and industrial systems. These high-performance and high-delivery inverters are extremely easy to install and commission and are designed to be reliable and low-maintenance.

Are ASW 8-20k lt-g2 solar inverters good?

The ASW 8-20K LT-G2 series inverters feature a maximum input current of 13A per string, making them a perfect pairing for bi-facial and large-area PV arrays. Reliable: The inverter was designed following international quality and safety standards and is a robust family of highly reliable solar inverters.

Are high-performance inverters reliable?

These high-performance and high-delivery inverters are extremely easy to install and commission and are designed to be reliable and low-maintenance. The inverters feature a sleek design that is compact, wall-mountable, and IP66-rated, making them weatherproof and highly durable.
