

## Solar Storage Container Solutions

# 24 88kwh lithium battery pack

## Overview

---

What are 24V lithium ion batteries used for?

24V lithium ion batteries are used in a broad spectrum of applications, including: Electric vehicles, E-bikes, AGV (Automated Guided Vehicle), Golf Cart, Forklift, Medical devices (Advanced Medical Cart, Fingertip Pulse Oximeter, HeartStart Monitor/Defibrillators ). Lithium-ion 24V batteries are ready to be used.

What is a 25.6v 200Ah lithium battery?

25.6V 200Ah Lithium Battery provides efficient, stable and reliable power support, which is especially suitable for Floor Scrubbers, Three Wheel, electric equipment and many other applications. With the advanced Battery Management System (BMS), this battery can provide an extra-long service life to meet your various high-performance needs.

What is the charge current of a 24V lithium-ion battery pack?

The 24V lithium-ion battery packs have a maximum charge current of 50A (0.5C). Maximum discharge current: 100A (1C) or higher.

What is a lithium ion battery?

Lithium-ion batteries are a relatively newer technology that offer intelligence, communication, higher energy density and longer life, while eliminating the need for service and maintenance like watering and following complicated charging processes.

How long does a lithium battery last?

Our batteries were designed to last more than 2,000 charge cycles depending on the model, and may last as long as the system. The average cycle life of a lithium battery is 3-5x more than a lead acid battery. What does SoC mean?

.

What if I don't use the talentcell 24V 4Ah lithium battery?

Talentcell 24V 4Ah LiFePO4 Lithium Battery Pack, 96Wh Deep Cycle Rechargeable. If you don't use the battery for a long time, we suggest you charged it periodically. It should be noted that the cell would be possible to be at a over-discharged state by its self-discharge characteristics in case the cell is not used for long time.
