

Solar Storage Container Solutions

3 6 kw solar inverter factory in Austria

Overview

What is s6-gr1p K-M series inverter?

S6-GR1P (0.7-3.6)K-M series inverter is designed for residential PV plants. The maximum input current per string is 14A, which is compatible with high-efficiency modules and bi-facial modules. Compact and lightweight design, make it easy to install. Fanless design, lower noise, brings you a comfortable living environment.

Who is int solar?

INVT Solar, is a solar products and solutions provider with core inverter technology, specializing in the production of solar inverter series products. Business scope includes on-grid inverter, off-grid inverter, solar water pump inverter, energy storage inverter, and smart PV Solution. Welcome to inquire.

What is Sungrow solar inverter?

SG3.0/3.6/4.0/5.0/6.0RSSungrow offers solar inverters with a high efficiency of over 99%, ranging from 450W to 8.8 MW. Besides, Sungrow PV inverters can be converted on any desired scale.

Which solar inverter is right for You?

KOSTAL solar inverters offer the right solution for every requirement thanks to the wide range of products available in various power segments. Flexible system design with up to 3 MPPT, rated power up to 7.0 kW and integrated shadow management and backup function.

What is a solar inverter?

Solar inverters from KOSTAL offer a suitable solution for every application. KOSTAL solar inverters are called string inverters. This means that several solar modules (generators) are connected in series and form a string.

What is a Kostal solar inverter?

KOSTAL solar inverters are the heart of every PV system and therefore the interface between the solar modules and the power grid, and are characterised by their particularly high efficiency and reliability.
