What is a 650 series AC inverter?

The 650 series inverters are simple, no-fuss speed controllers for standard three-phase AC motors, ranging from 0.3 to 10 HP. These V/Hz drives are exceptionally easy to use. The 650 Series includes five pre-programmed applications, all designed to simplify setup, installation, and operation.

What is a rated power inverter?

**Rated Power** – this refers to the maximum AC power that the inverter can produce and is usually included in an inverter's model number. For example, SMA's STP 15000TL inverter has a rated power of 15,000W or 15kW. **Central Inverters** – this type of inverter usually has a power rating that ranges from 100kW to a few megawatts.
