

Solar Storage Container Solutions

Abu Dhabi containerized energy storage new energy factory

Overview

In the presence of President His Highness Sheikh Mohamed bin Zayed Al Nahyan, Abu Dhabi Future Energy Company PJSC – Masdar and Emirates Water and Electricity Company (EWEC) today announced the launch of the world's first large-scale 'round the clock' gigascale project, combining solar power and battery storage in Abu Dhabi. Why is UAE launching a solar power and battery storage project?

The launch of the solar power and battery storage project marks a pivotal moment in the clean energy transformation, allowing renewable energy to be dispatched 24 hours a day, seven days a week, reaffirming the UAE's position as a global pioneer in renewable energy deployment.

Why is Abu Dhabi leading the charge for solar power battery storage?

Abu Dhabi is leading the charge for solar power battery storage as the biggest facility in the world is set to built. Here's why that's a seriously cool thing.

What is EWEC doing in Abu Dhabi?

Located in Abu Dhabi, the project will feature a 5.2 gigawatt DC solar photovoltaic plant, coupled with a 19 gigawatt-hour battery energy storage system, setting a global benchmark in clean energy innovation. "In collaboration with EWEC and our partners, we will develop a renewable energy facility capable of providing clean energy round the clock.

Who are Abu Dhabi's future energy companies – Masdar & EWEC?

Abu Dhabi's Future Energy Company, Masdar, and the Emirates Water and Electricity Company (EWEC) are the masterminds behind this groundbreaking initiative. And the UAE President, Sheikh Mohamed bin Zayed Al Nahyan, was also there to witness the launch.

What is the largest combined solar and battery energy storage system?

Delivering up to 1 gigawatt (GW) of baseload power every day generated from

renewable energy, it will be the largest combined solar and battery energy storage system (BESS) in the world.

Is the Middle East ready for battery storage?

The Middle East region, meanwhile, has been relatively slow in its adoption of battery storage versus more mature markets like China and the US but is predicted to rapidly catch up based on policy announcements such as Saudi Arabia's Vision 2030 strategy.
