

Solar Storage Container Solutions

Actual cycle life of energy storage cabinet

Overview

What are the benefits of a Bess containerised energy storage system?

BESS containerised solution will be 8-10% cheaper. Low cost and long life combination will allow for better ROI on energy storage projects, especially for projects with up to 1 cycle per day for 20 years or 2 cycles per day for up to 15 years. 35% more energy can be stored in 20-foot container, up from the traditional design of 3727kWh to 5016kWh.

How much energy can be stored in a 20-foot liquid cooling container?

35% more energy can be stored in 20-foot container, up from the traditional design of 3727kWh to 5016kWh. Higher BESS capacity will allow for lower auxiliary power consumption and hence improve the overall round-trip efficiency of the project. Below is the comparison of 20 Feet Liquid Cooling Container Design for both type of cells:.
