**After the base station is set up
how to put the power supply**

Overview

Do base stations need a power supply?

Power Requirements: Base stations operate on 120V AC power rather than 12V DC, requiring either built-in power supplies or separate AC-to-DC converters. **Size and Ergonomics:** Designed for desktop use, these radios feature full-size controls, making operation more comfortable during extended sessions.

How do I install a base station CB system?

Base Station CB systems are not complicated to install, but there are a few things you should know. So, let's get into it. First, you need a radio system that works off of AC power. Most CB radios are designed for vehicles that are powered by DC 12-volt power systems.

How do I connect my base stations?

Attach the power cables to the base stations, and then plug them each into a power outlet to turn them on. The status lights should be green. Connect the base stations and set the channels. Note: For details on how to order the sync cable, contact customer care.

How do I pick up a base station/repeater?

DO NOT pick up the base station/ repeater by holding the Preselector (if so equipped). Use the handles on the front of the base station/repeater, or the Power Supply and Power Amplifier casings when picking up the base station/repeater. Remove the station front bezel from its chassis locking clip by carefully pulling it forward.

How does a base station/repeater work?

The Power Supply module in the base station/repeater provides DC power to the Receiver, Exciter, SCM and Power Amplifier module via one or more of the three DC output taps; 28.6 VDC, 14.2 VDC and 5.1 VDC by using a DC Input

cable. The base station/repeater equipment can be mounted in a rack or cabinet.

How do you set up a TV base station?

Adjust the base stations so that the front panels are facing toward the center of the play area. Attach the power cables to the base stations, and then plug them each into a power outlet to turn them on. The status lights should be green. Connect the base stations and set the channels.
