# Azerbaijan 24 hours ups uninterruptible power supply

## Overview

---

What is a SDU DC UPS?

The SDU DC UPS is a powerful, microprocessor controlled UPS that provides protection from power interruptions. The SDU Off-Line DIN Rail UPS series combines an industry leading compact design with a wide operation temperature range and unique installation options.

What makes Genser a great UPS company?

The core of GENSER's UPS solutions consists of modular, hot-swappable products that are easy to install and maintain. Our broad product portfolio offers solutions that answer a broad range of needs from those of individual homes to the large-scale requirements of major industrial plants.

What is a s3k uninterruptible power supply mini-tower?

The S3K uninterruptible power supply mini-tower is an economical choice for those applications requiring the performance of a sinewave output, line interactive UPS with the mini-tower shape for cabinet installations.

Do you need a commissioned UPS system?

A UPS system must be properly installed and commissioned to ensure a long and trouble-free working life. Whilst small, less sophisticated UPS systems simply plug into a standard mains socket, larger UPS systems (typically over 3kVA) must be electrically installed and commissioned by skilled and qualified professionals.

How does the s3k series uninterruptible power supply work?

The S3K Series uninterruptible power supply protects against most severe power disturbances including over/under voltages through state of art, line-interactive technology - most power disturbance corrections are accomplished without transferring to the internal battery.
