What role will Bess play in Italy's future energy landscape?

MP: BESS will play a critical role in stabilizing Italy's future energy landscape. As more renewable energy sources are integrated into the national grid, BESS will ensure that we meet Italy's climate targets. By 2030, we expect BESS to be indispensable for optimizing energy use and providing a reliable, sustainable energy system.

How important are Bess in Italy's energy transition?

MP: BESS are becoming increasingly vital in Italy's energy transition. With the ambitious targets outlined in the National Energy and Climate Plan (NECP), including reducing carbon emissions and increasing renewable energy to 30% of final energy consumption by 2030, BESS are essential.

How is the Italian government aiming for 15GW of Bess capacity?

The Italian government is aiming for 15GW of BESS capacity by 2030 to maintain security of supply. The Italian government, regulator, and Transmission Service Operator (TSO) are creating an attractive regulatory environment for BESS by offering multiple incentive schemes and updating the grid code.

Is Bess a good investment in northern Italy?

While Northern Italy currently has the largest installed BESS capacity in the country, a build-out of RES in the South is increasing energy price volatility, creating a more compelling investment case for BESS in this region.

Are battery energy storage systems needed in Italy?

Therefore, battery energy storage systems (BESS) are needed in Italy. The Italian market for BESS is growing rapidly and currently amounts to 2.3 GW but it almost exclusively consists of residential scale systems, associated with small scale solar plants, having an average capacity of less than 20 kWh.

## Why is Telis energy advancing Bess Technology in Italy?

MP: Telis Energy is committed to advancing BESS technology in Italy. We are deploying state-of-the-art storage solutions and building strategic partnerships to address sector challenges. We focus on innovation and collaboration to accelerate the adoption of BESS and make a significant contribution to Italy's energy transition goals.
