Baku 2025 Energy Storage Project

51.2V 300AH

Overview

The Azerbaijani Energy Ministry and SOCAR Green LLC signed an agreement with China Datang Overseas Investment Co. Ltd. on the assessment, development and implementation of a 100 MW floating solar power plant project with a 30 MW battery energy storage system in Lake Boyukshor in Baku. Will Azerbaijan develop its first industrial-scale battery energy storage system?

He also highlighted that efforts are ongoing to select a company to develop Azerbaijan's first industrial-scale Battery Energy Storage System (BESS). In September of this year, Azerenergy announced a new tender for the development of a 250 MW Battery Energy Storage System (BESS) project, slated for completion by 2027.

Does Azerbaijan need a battery energy storage system?

The efficient operation of renewable energy facilities, with their inherently intermittent power flows, is impossible without implementing a Battery Energy Storage System (BESS) in Azerbaijan.

What's going on with Azerbaijan's new floating solar power plant?

The third announced project is a 100 MW floating solar power plant with a 30 MWh battery storage system to be located on Lake Boyukshor, close to Azerbaijan's capital Baku. The agreement is in place between the ministry, Socar Green and China Datang Overseas Investment Co. Ltd, which is set to be the main investor.

Are solar energy trends relevant for Azerbaijan?

These trends are highly relevant for Azerbaijan, and during the COP29 climate conference, the Baku International Sea Trade Port (BISTP) and Malaysia's Tiza Green Energy (a subsidiary of Citaglobal) launched the country's first project integrating solar energy with a Battery Energy Storage System (BESS).

Will a 100 MW solar power plant be built in Azerbaijan?

The second agreement concerns a 100 MW solar power plant to be built in the Gobustan district of eastern Azerbaijan. It is between the ministry, Universal Solar Azerbaijan LLC and an unnamed Chinese company whose cooperation was determined through an auction.

How much green energy will Azerbaijan have by 2027?

By 2027, the construction of eight industrial-scale solar and wind power plants is expected to add 2 GW of green energy capacity, increasing the share of renewables to 33% of Azerbaijan's total energy mix.
