

## Solar Storage Container Solutions

# Base station solar tiles

## Overview

---

What is a goodwe solar roof tile?

The GoodWe Sunshine Series is an integrated solar roof tile solution for pitched rooftops to replace traditional solar panels and framework for a sleek, aesthetically-pleasing result, that also maximises your rooftop space for more solar production. The integrated tempered double-glass structure ensures the safety of the roof structure.

Which roof tile has a solar panel?

The SOLAR FLAT-5XL ceramic tile, which has a solar panel on the large ceramic base of the roof tile, preserves the dimensions of the original ceramic tile and is still completely flat. The choice of materials for a roof is crucial to guarantee its durability, watertightness, energy efficiency and to protect the home.

How do solar tiles work?

Solar tiles operate identically to the photovoltaic panels that are already widely used in construction.

Are solar tiles good for solar panels?

In the SOLAR Flat-10 tile, the solar panel is added onto an anodized aluminium base, which is an ideal material for photovoltaic installations thanks to its high resistance, low weight and durability. When are solar tiles a good option?

.

Are solar roof tiles a good way to capture solar energy?

Solar roof tiles offer a new way to capture solar energy on roofs. We explore some of its characteristics, advantages, and disadvantages.

How to install solar tiles on a ventilated roof?

SOLAR tiles, both the Flat-5XL and Flat-10 formats, must always be installed on ventilated roofs, using a double batten or equivalent system. The integration of the tiles into the roof is achieved by finishing the roof with ceramic tiles and their corresponding special pieces.
