Battery inverter full set of accessories

Overview

What is an inverter battery?

The inverter battery and inverter cables are usually connected to the power connection of the home. An inverter battery for home can be any rechargeable or secondary or storage battery (electrochemical power source) like a lead-acid battery, nickel-cadmium battery or Li-ion battery.

Which batteries are used in our inverters?

For batteries, we only use Class A LiFePO₄ batteries from China's top five brands, using BYD automotive-grade smart BMS technology. Our inverters' core components are adopted with international brands. Such as, IGBT is from INFINEON, and MOSFET is from TOSHIBA.

What are the advantages of a three-phase hybrid inverter?

Product Advantage: The main indexes of three-phase hybrid inverters are in the leading position in the industry; the cost, performance and main technical indexes of industrial frequency inverters, off-grid hybrid inverters (high-frequency machines) and lithium batteries have significant advantages.
