## Overview

---

First, we compiled a product tracker to chart the specifications, reviews, and real-life output of over 50 different solar generators across 30 parameters, from price to protection systems, voltage, battery capacity, number of ports, and more—all in all, that equates to a comprehensive product tracker covering over 1,000 unique data points. Can a solar generator power a home?

A few years ago, solar generators were mostly good for camping and charging your phone in emergencies. Now, you can find a solar generator that can power your entire home. In fact, you can find a solar generator that's perfect for your specific application whether it's home backup, camping, RV or off-grid living.

Should you buy a home generator?

To be safe, it's best to invest in a home generator that can provide backup power as needed. While many bigger home generators run on liquid propane or gas, there are a number of newer models that run on solar energy.

Which solar generator should I buy?

Bring it on. The Bluetti AC500, along with the included B300S battery pack, is a beast. With an output of 5000W, it is one of the most powerful solar generators in the market. It's a great choice if you need a highly capable solar generator to run heavy duty appliances. High power output.

What is a good portable solar generator?

If you want a portable solar generator that can power most appliances, the Jackery Explorer 2000 Pro is a good pick. It comes with a built-in 2200W inverter, meaning it can power most household appliances including a full size refrigerator, TV, blender and others. You can also run power tools off the 2000 Pro.

What is the best solar generator for appliances?

**Best Solar Generator for Most Appliances: Bluetti AC200L** If you want a solar generator that can power appliances whether it's at home, in your RV, offgrid or anywhere else, our top pick is the Bluetti AC200L.

Can a rechargeable solar generator power a house?

Generally speaking, a rechargeable solar generator won't be able to power your entire house if you lose power. With that said, even a smaller generator can be used to power key devices or appliances, sometimes for days at a time depending on its power consumption.
