Bolivia lithium battery pack

Overview

Will Bolivia build a lithium battery plant in China?

La Paz (AFP) – Bolivia said Tuesday it had signed a \$1 billion deal with China's CBC, a subsidiary of the world's largest lithium battery producer CATL, to build two lithium carbonate production plants in the country's southwest.

Does Bolivia have a lithium plant?

This follows a deal between Bolivia's state-run lithium company, Yacimientos del Litio Bolivianos (YLB), and a Chinese consortium. CATL agreed to invest over \$1 billion in the project's first stage for rights to develop the two lithium plants. Despite being a global leader in electric vehicle batteries, CATL does not currently produce any lithium.

Could Bolivia finally untap its lithium resources?

Credit: Courtesy of psyberartist. Bolivia finalised a major deal this week with China's largest battery producer CATL and largest cobalt miner CMOC in a move that could finally see the South American country untap the full potential of its huge lithium resources.

How much will Bolivia invest in lithium?

The total investment in the Bolivian lithium industry is expected to reach around \$9.9 billion. This follows a deal between Bolivia's state-run lithium company, Yacimientos del Litio Bolivianos (YLB), and a Chinese consortium. CATL agreed to invest over \$1 billion in the project's first stage for rights to develop the two lithium plants.

Will Bolivia build a lithium plant in the salt flats?

The agreement focuses on Bolivia's salt flats, known for their vast lithium resources. Bolivian President Luis Arce confirmed the plan to build two lithium plants in the country's Uyuni and Oruro salt flats after meeting with CATL executives. He announced a \$1.4 billion investment and hinted at possible

future investments up to 2028.

Is Bolivia's lithium a permanent state reserve?

The Bolivian government has authorized a new state company to undertake the full chain of lithium production, including exploration, development, industrialization, and marketing, proclaiming its lithium deposits to be a permanent state reserve.
