Boston Energy Storage Battery Source Factory

Overview

What is the largest solid-state battery assembly line in the US?

With a capacity of 200 MWh, it is said to be the largest solid-state battery assembly line in the US to date. Factorial Energy, the US developer of solid-state battery cells backed by Mercedes-Benz, Stellantis and Hyundai-Kia, has opened its manufacturing facility in Methuen, a Massachusetts suburb of Boston.

Will Massachusetts help Boston-power build a new energy storage facility?

Enabling energy storage to continue to flourish in Massachusetts, state officials are working closely with Boston-Power to pursue state and federal financial incentives that will help the company to fulfill its plans of building the Auburn facility.

Can solid-state batteries improve materials recovery & recycling?

Part of the allure of solid-state batteries is the potential for improving materials recovery and recycling. Factorial is working that end of the solid-state EV battery room as well. In June, the company announced a lithium recycling research partnership with the Korean firm Young Poong, which specializes in non-ferrous metal smelting and refining.

Where is factorial's new EV battery factory located?

Earlier this month Factorial announced plans for a new battery R&D facility to be located in Massachusetts, and on October 23 the company is celebrating the official opening ceremony for its new solid-state EV battery factory, located in the Boston-area suburb of Methuen.

Where is the world's most advanced battery manufacturing facility located?

Boston-Power, Inc. announced that the company is working to build what it describes as one of the world's most advanced battery manufacturing facilities in Auburn, Massachusetts.

Does Factorial have a solid-state EV battery?

Into this mix comes Factorial with a new solid-state EV battery called FEST® (Factorial Electrolyte System Technology). CleanTechnica took note of the company back in 2021, when the auto makers Daimler and Stellantis signaled they were interested in the technology. Don't get too excited just yet.
