Boston Lithium Battery Energy Storage Industrial Park

Overview

Will Massachusetts help Boston-power build a new energy storage facility?

Enabling energy storage to continue to flourish in Massachusetts, state officials are working closely with Boston-Power to pursue state and federal financial incentives that will help the company to fulfill its plans of building the Auburn facility.

Where is the world's most advanced battery manufacturing facility located?

Boston-Power, Inc. announced that the company is working to build what it describes as one of the world's most advanced battery manufacturing facilities in Auburn, Massachusetts.

Where are lithium-ion batteries made?

Currently, nearly all lithium-ion batteries in the world are manufactured in Asia. The Commonwealth will offer up to \$9 million in matching financing to support the company's planned manufacturing operation in Auburn. Boston-Power selected the Auburn site based on proximity to its headquarters.

Who makes lithium ion batteries?

Boston Power manufactures and markets lithium-ion batteries for transportation, utility energy storage, portable power, and government market applications internationally. It offers battery cells, blocks, modules, and systems; lithium-ion batteries for electric vehicles; and custom solutions for various format battery packs.

Who is pure lithium?

About Pure Lithium Pure Lithium is a disruptive Boston-based lithium metal battery technology company led by its founders, inventor and lithium expert, CEO Emilie Bodoïn, and world-renowned battery and metallurgical expert, MIT Emeritus Professor Donald R. Sadoway, as full-time CSO.

How much money does Boston-power need?

With support from Massachusetts officials, Boston-Power is seeking approximately \$100 million under the U.S. Department of Energy's advanced battery and cell manufacturing grant program established as a part of the American Recovery and Reinvestment Act.
