## Overview

---

Are lithium batteries safe to ship?

Improperly packaged lithium batteries can ignite, causing fires that are difficult to extinguish and pose a significant risk to the safety of transportation workers and the general public. Other battery types, such as alkaline or nickel-metal hydride (NiMH), are generally considered safer to ship.

Can I send items with lithium batteries?

Providing the postal authority has received approval from their Civil Aviation Authority, then you may be able to send items which contain lithium batteries. Power banks, which contain lithium batteries and which are used to recharge or power other devices, are categorised as lithium batteries and are not permitted under this provision.

Can you take a lithium ion battery on a plane?

Spare lithium batteries must be carried in carry-on baggage only and must be individually protected so as to prevent short circuits. Power banks are considered as spare lithium batteries and must be completely switched off in flight. Lithium ion batteries: the Watt-hour rating must not exceed 100 Wh.

Can you travel with lithium batteries?

However, with proper preparation and knowledge of the rules, it is possible to travel internationally with your electronic devices powered by these batteries. When packing for your trip, make sure to keep your lithium batteries in their original packaging or use battery cases that are designed for travel purposes.

How to safely transport lithium batteries?

Selecting suitable packaging, and then packing the batteries safely, is a key component to safely transporting lithium batteries. For larger batteries, the packaging may need to UN specifications. What type packaging you need is not a “one size fits all” answer.

Should lithium batteries be shipped by air?

Regulations for shipping lithium batteries by air are in place to protect everyone who would come in contact with a lithium battery shipment while it is being transported as air cargo; with training being required for everyone in this supply chain, to protect the aircraft, and the people in the aircraft, that is carrying the batteries.

## Can we bring lithium battery packs to Nauru

### Lithium battery parameters

Product capacity: 100Ah

Product size: 135\*197\*35mm

Product weight: 1.82kg 197mm /7.7in

Product voltage: 3.2V

internal resistance: within 0.5

## Guide to Shipping Batteries Overseas by Air and ...

Sep 28, 2022 · Shipping batteries by air or sea freight can be hazardous. Here's how to safely ship lithium-ion and other batteries internationally including ...

## NAURU LI ION BATTERY ALTERNATIVE
