# China Communications Services 5G Base Station

## Overview

---

How many 5G base stations are there in China?

With 4.19 million 5G base stations already operational across China, the MIIT emphasized that “promoting 5G revolution and 6G innovation will be one of the priorities” for 2025, according to a report by Chinese newspaper China Daily. Chinese main operators are China Mobile, China Telecom and China Unicom.

What is a 5G base station?

A 5G network base-station connects other wireless devices to a central hub. A look at 5G base-station architecture includes various equipment, such as a 5G base station power amplifier, which converts signals from RF antennas to BUU cabinets (baseband unit in wireless stations).

Who are China's 5G operators?

Chinese main operators are China Mobile, China Telecom and China Unicom. In addition to its expected expansion in the 5G field, China noted that it is also set to begin trials for 10-gigabit optical networks and enhance computing power infrastructure, reflecting the growing demand for artificial intelligence (AI) technologies.

Will 5G Revolution & 6G innovation be a priority next year?

The move comes as the country charted its vision for industrial growth during a two-day work conference of the Ministry of Industry and Information Technology. With 4.19 million 5G base stations already in operation, the industry regulator said that “promoting 5G revolution and 6G innovation will be one of the priorities” next year.

How many 5G phone subscriptions are there in China?

China’s 5G mobile phone subscriptions surpassed 1 billion by the end of November, local press reported, citing data released by the Ministry of

Industry and Information Technology. The 5G subscriptions now represent 56% of all mobile lines in China, reflecting a 9.4 percentage point increase compared to the previous year.

What will China do with the 5G push?

Alongside the 5G push, China will also start trials for 10-gigabit optical networks and optimize computing power centers amid an artificial intelligence (AI) boom brought on by ChatGPT.

## China Communications Services 5G Base Station

---

### Beijing projects fully large-scale 5G applications by 2027

Aug 18, 2025 · Infrastructure upgrades will deploy 70 5G and 5G-Advanced (5G-A) base stations per 10,000 residents, with over 35,000 new or upgraded 5G-A base stations to ensure ...

### China's 5G subscriptions surpass 1 billion amid strong uptake

Dec 24, 2024 · This second "Set Sail" action plan since 2021 emphasizes strengthening 5G applications, particularly in consumer-oriented sectors. It sets 2027 targets, including 38 5G ...

### 5G base stations to proliferate widely
