

Overview

Who is a reputable switchgear manufacturer in China?

DOHO is one of the most reputable switchgear manufacturers in China, with over 10 years in the electrical industry. We produce a full range of low-voltage (LV) , medium-voltage (MV) switchgear and high-voltage switchgear (HV).

What voltage is used in Mongolia?

The voltage in Mongolia is 220 V which is the same voltage used in China, Greece, Russia, South Korea, and the United Arab Emirates. 220 V has an advantage over lower voltage such as the 110 V that it is cheaper to transmit. On the other hand, 220 V is more dangerous than lower voltages. The plugs used in Mongolia are C or E.

What is a high voltage switchgear?

Our high voltage switchgear is made with high quality materials and components to ensure its long service life and reliability. DOHO HV switchgear products are designed for installation in locations with high voltage systems such power transmission and distribution.

What types of switchgear do you offer?

We offer a broad range of switchgear products, including low voltage, medium voltage switchgear, and high voltage switchgear. We also offer a wide variety of components in all switchgear categories, such as circuit breakers, fuses and an array of switches.

What is a low voltage switchgear?

DOHO low voltage switchgear is designed for safe and reliable distribution of electrical power in residential, commercial, and industrial applications. This type of switchgear is available in a variety of configurations, including circuit breakers, contactors, fuses and other components.

What is a Doho HV switchgear?

DOHO HV switchgear products are designed for installation in locations with high voltage systems such power transmission and distribution. Our gas insulated switchgear is made with SF6 gas, which has excellent arc-extinguishing properties.
