Overview

Are all energy storage facilities in the Netherlands electro-chemical?

All energy storage facilities in the Netherlands are electro-chemical, with the exception of the contracted 1 MW Hydrostar underwater compressed air energy storage project in Aruba (Caribbean). Hydrostar is a Canadian company specializing in underwater compressed air energy storage technologies.

Is there a business case for energy storage in the Netherlands?

As mentioned above, there have been two major barriers, or stumbling blocks, to the business case for energy storage in the Netherlands to date. As of the beginning of 2022, one of those has been eliminated, to the great relief of GIGA Storage and others in the industry.

Who are the biggest energy suppliers in the Netherlands?

Essent, Vandebron and Energiedirect.nl together served more than three million people in 2018, making them the largest energy suppliers of the Netherlands. Both are brands from German-based innogy, itself a subsidiary of RWE. Domestic company Eneco, together with its subsidiary Oxxio, reached 2.4 million clients.

How will enecogen & EP NL handle battery development in the Netherlands?

Enecogen will handle the battery's maintenance and operations, while the trading departments of EP NL and Eneco will control its deployment. No financial details were announced. In the announcement, the companies noted that battery development in the Netherlands lags behind other European countries, citing grid fees as a primary obstacle.

Is this Eneco's first battery in the Netherlands?

At the same time, it's a shame that this is only Eneco's first own battery in the Netherlands," said Karen de Lathouder, COO Assets at Eneco. "We are still

miles away from achieving the battery capacity required in the Netherlands to prevent power shortages and grid congestion, as well as reducing emissions from our energy system sufficiently.

Should batteries in the Netherlands be exempt from grid charges?

As in Belgium and Germany, batteries in the Netherlands should be exempt from grid charges to enable this acceleration.”
