Container Customization Wholesale

Overview

Why do you need a customized container?

Modifying a container is a smart way to increase the value and longevity of your container. Instead of renting or building new facilities every time you have a new need, a customized container can provide long-term functionality at a lower total cost.

What is a shipping container made of?

Your container's intended use was for shipping and comes standard with cargo doors on one end. Skylights and windows are an inexpensive option to bring natural light into your container. The floor of a shipping container is typically comprised of 1-1/8" thick marine plywood.

Can you convert a shipping container & storage container?

Let us convert a shipping container and storage container to fit your unique requirements. Our knowledgeable staff at Container Technology has over 30 years of experience with custom container modifications to assist you from start to finish.

What are container modifications?

Container modifications allow you to customize your storage container according to specific needs. Container Technology's modification offerings provide comprehensive options to tailor your unit, empowering businesses to meet their business objectives more effectively with containers customized for their uses.

What are the advantages of customizing a storage container?

One of the biggest advantages of customizing a storage container is how adaptable it becomes. A standard container offers basic storage, but with the right modifications, it can transform into an office, breakroom, equipment room, a disaster relief station, or even a pop-up storefront.

How long does a conexwest shipping container last?

Each storage container from Conexwest is durable, secure, and weatherproof. The Warranty Coverage Period for New ISO shipping containers is 10 years from the date of purchase. The Warranty Coverage Period for Used Cargo Worthy ISO shipping containers is 5 years from the date of purchase. Unit leakproof guarantee included.
