

Solar Storage Container Solutions

Danish new energy photovoltaic glass manufacturer

Overview

What is Danish solar energy?

Danish solar energy releases the world's most efficient selection of colored solar modules. This ingenious technology is especially interesting for the building industry, where solar energy can be integrated 100% in the building so that roofs and facades in practice become energy producing.

Who is Danish renewables?

Danish Renewables owns or has developed projects of 54 MW in Denmark, Maldives and Moldova, and has developed projects of 153 MW in South Africa and Moldova, which are in the late project financing stages.

What is the first solar facade in Copenhagen?

THE FIRST SOLAR FACADE AT A LISTED BUILDING IN COPENHAGEN. A beautiful facade solution with red high-efficiency CFR solar cells in one of Copenhagen's many red stone properties. The first first red solar cell facade solution in Copenhagen, and probably the first in the world.

What makes Danish Renewables a good business?

We believe that making renewable energy projects that are good for both People, Planet and Profit is good business, and we love doing it. Danish Renewables develops photovoltaic projects throughout the world, and this is what we do most.

Who are DSE solar components distributors?

DSE is the official distributor for some of the well known solar components producers like Fronius, ABB, Steca, MorningStar, Grundfoss, Victron Energy, Hoppecke etc. Based on our in-depth PV technology knowledge and insight in the solar components market, we are capable of selecting the right quality products without any compromise.

What is the most beautiful PV system in Copenhagen?

UN city complex, hailed as a Star in Copenhagen's harbor was completed in 2014. We're proud to deliver the PV systems installed on the top of building. This project was awarded at the Intersolar 2014 as "the most beautiful PV system since 2002".
