manufacturers**

Overview

Who makes American solar panels?

Get quotes from the top American solar panel installers using the form below. If you are looking for U.S.-made solar equipment, the largest American solar panel manufacturers include Silfab Solar, Mission Solar and First Solar. Additionally, Tesla Energy, Canadian Solar and Qcells produce some solar panels in the U.S.

What are the most popular American-made solar panel brands?

According to Andrei Gorinchenski, senior editor at A1 Solar Store, the most popular American-made solar panel brands are Silfab Solar, Mission Solar and First Solar. Silfab Solar, one of our top-rated solar panel brands, has solar panel factories in the state of Washington and Toronto, Canada.

Are solar panels made in America?

Additionally, Tesla Energy, Canadian Solar and Qcells produce some solar panels in the U.S. Although solar panels manufactured in the U.S. are not necessarily higher quality than panels made elsewhere, investing in American-made solar panels supports domestic solar research and helps create jobs.

Which solar company makes the most solar panels?

The Hanwha Group has a US Q CELLS plant that produces 12,000 solar panels a day and employs many Americans. The company also assembles Q.PEAK modules here, which utilize Q. Antum crystalline-silicon solar cells. Having its factory produce 1,700 MW of solar power, it is right behind First Solar and vying for the top spot.

Should you invest in American-made solar panels?

American-made solar panels tend to cost more than panels manufactured overseas in countries like China and Korea. However, investing in U.S. solar panels can help support the domestic economy and advance solar research

and development. Ultimately, a solar panel manufacturer's country of origin may or may not be a deciding factor for you.

Where are solar panels made?

First Solar manufactures panels for utility-scale projects, and it produces solar equipment in the U.S. and Malaysia. It has a research and development center in California and three factories in Ohio — its first facility opened in Perrysburg, Ohio in 2002. Tesla Energy, Canadian Solar and Qcells are also worth mentioning:
