# Does BESS rooftop solar panels cost money

## Overview

---

How much would a rooftop solar system cost without Bess?

Without BESS, the same household could install 10 kW of rooftop solar, which would cost \$28,700 and save \$1,567 per year. PGE and the state of Oregon both offer incentives for rooftop solar and battery energy storage. With the utility, state, and federal incentives, the combined solar and BESS system could be paid back within 11 years.

Are rooftop solar panels or battery energy storage systems worth the cost?

Pacific Northwest National Laboratory (PNNL) researchers are here to help. Homeowners must navigate a quagmire of complicated policies to determine whether the energy savings from rooftop solar panels or battery energy storage systems (BESS) are worth the high upfront cost.

How much does a rooftop solar system cost in Washington?

A 7.5 kW rooftop solar system plus a 13.5 kWh BESS would cost \$46,322 on average in Washington to install without incentives. The state's largest utility, Puget Sound Energy (PSE), offers a TOU rate option, meaning prices are higher in the evenings and lower overnight, in the early morning, and on weekends.

Is there a guide to rooftop solar & Bess?

To help homeowners tackle this tangle of information, PNNL researchers Jessica Kerby and Bethel Tarekegne published an open-access guide to rooftop solar and BESS in Renewable Energy Focus.

Does a rooftop solar system save money?

However, for most solar systems, the amount of electricity curtailed is small, so the savings from reducing curtailment are modest. The payback period is the amount of time it will take for your electricity savings to match the cost of the system. For a rooftop solar system, this is typically much less than the

lifetime of the system.

How much would a solar system cost without Bess?

Without BESS, the same household could install 10 kW of rooftop solar, which would cost \$29,200 and save \$1,357 per year. Without financial incentives, the payback period for the rooftop solar and BESS would be around 28 years, but with the Investment Tax Credit it's brought down to 20 years.
