# Dublin Energy Saving New Energy Storage Battery

## Overview

---

The ESB has opened a major battery plant at its Poolbeg site in Dublin which will add 75MW (150MWh) of fast-acting energy storage to help provide grid stability and deliver more renewables on Ireland's electricity system. What will ESB's new battery plant do for Ireland?

ESB, the state-owned electricity company, has announced the opening of a major battery plant at its site in Poolbeg, Dublin. The battery plant will add around 75MW of fast-acting energy storage to make the grid in Ireland more stable and increase the share of renewables in the electricity system.

Which battery energy storage systems are available in Ireland?

The Kylemore Battery Energy Storage System in Dublin went into operation in 2023 and has the capability of providing 30MW of fast-acting storage. The South Wall Battery Energy Storage System went live in 2023 and has the capability of providing 30MW of fast-acting energy storage.

Are battery energy storage systems a 'great achievement' in Ireland?

ESB Networks described the project as a "great achievement for battery storage" in Ireland. Battery energy storage systems, often referred to as Bess, are regarded as a vital part of the Ireland's fledgling renewable energy sector and demand for them has never been higher.

How much energy will ESB provide to Ireland's Electricity System?

Image: Fennell Photography Operational since November last year, the project has the capacity to provide 75MW of energy to Ireland's electricity system for around two hours. ESB, the state-owned electricity company, has announced the opening of a major battery plant at its site in Poolbeg, Dublin.

Where is ESB delivering a new battery energy storage system?

This latest battery energy storage system (BESS), currently the largest site of its kind in commercial operation in Ireland, is part of ESB's pipeline of projects

which are being delivered at sites in Dublin and Cork – representing an investment of up to €300m.

Which battery energy storage systems are available in 2023?

The South Wall Battery Energy Storage System went live in 2023 and has the capability of providing 30MW of fast-acting energy storage. The Poolbeg Battery Energy Storage System in Dublin went into operation in November 2023 and has the capability of providing 75MW of fast-acting energy storage.
