Dushanbe Communications 5G Base Station Bidding

Overview

Is Tajik launching 5G in Dushanbe?

Tcell, a Tajik operator, activated its first 5G base stations in the city of Dushanbe, after receiving a license for 3500MHz spectrum in June of last year. "The country's leading innovative operator, Tcell, presents the most high-speed network of new generation - 5G in Dushanbe," according to its website.

How many 5G base stations does China Mobile Need?

The CBN/China Mobile tender requests bids for 480,397 5G macro base stations in the 700 MHz band which is roughly equivalent to the number of 2.6 GHz base stations already deployed by China Mobile. Based on past big 3 (China Mobile, China Telecom, China Unicom) tender results, Huawei and ZTE are expected to win approximately 85% of the business.

How many 5G base stations will China build in 2025?

China plans to construct over 4.5 million 5G base stations in 2025 while introducing additional policy and financial incentives to support industries expected to shape the next decade, the country's Ministry of Industry and Information Technology (MIIT) announced during its annual work conference.

Who won China's largest wireless base station tender in 2023?

(Yicai Global) June 12 -- Huawei Technologies has gained over half of the procurement of China's largest fifth-generation wireless base station tender this year organized by China Mobile. The telecoms giant scored over 50 percent of the total of the major mobile network operator's centralized procurement program in 2023, The Paper reported today.

Who will win China 5G contract?

Based on past big 3 (China Mobile, China Telecom, China Unicom) tender results, Huawei and ZTE are expected to win approximately 85% of the

business. That would leave only 15% for Ericsson or other well known 5G base station vendor, but probably NOT Nokia which was shut out of the last China 5G contract awards.

How many base stations will CBN & China Mobile deploy this year?

CBN and China Mobile are reportedly promising to deploy 400,000 base stations this year. Robert Clark of Light Reading wrote, "That seems unlikely – it took the incumbent operators nearly two years to reach that mark – but it seems certain that CBN will offer its first commercial services late this year or early 2022.
