

## Solar Storage Container Solutions

# EK Uninterruptible Power Supply Equipment in New York USA

114KWh ESS

## Overview

---

What is an uninterruptible power supply (UPS)?

Uninterruptible power supplies (UPS) are essential to ensure you have continuous power during a power outage. From a small UPS to save and shut down your PC, to large commercial systems that power large data centers or critical systems in hospitals, we have the solutions you and your customers demand.

Who makes static power supplies?

Staticon Ltd., headquartered in Scarborough, Ontario, is an established manufacturer of industrial/utility station power supply equipment since 1964. The company has been producing Rectifiers, DC UPS Systems, Battery Chargers, Inverters, AC Line Conditioners, AC Transfer Switches, and AC UPS Systems since its inception.

Why do you need a static power ups system?

UPS systems, or uninterruptable power systems, have become a necessity in industries where staying online with power is a must. Static Power's UPS equipment will ensure that even during emergency situations, all of your data and equipment will be protected. Static Power specializes in technical sales and service for UPS systems nationwide.

What are the components of a ups?

UPS generally consists of the following circuits and batteries: A circuit for converting AC power to DC power. A circuit for converting DC power to AC power. A circuit for outputting AC power directly. Circuit to switch between inverter output and bypass output.

What are the different types of ups power supply methods?

UPS are available in a variety of power supply methods, the three most common of which are as follows: 1. Constant Inverter Power Supply System

This is a method in which power is supplied through an inverter regardless of the state of the commercial power supply. Power is supplied by the inverter in both normal and blackout conditions.

What types of products does a power supply company offer?

The company offers a wide range of products including uninterruptible power supply (UPS) systems, voltage regulators, DC power supply, telecom equipment, battery chargers, as well as inverters, rack cabinets, and other electrical products and electronic equipment.

## EK Uninterruptible Power Supply Equipment in New York USA

### Uninterruptible Power Supplies , Industrial , Process Industry

6 days ago · Smart , Safe , Connected
