Which energy storage projects have been approved by state regulators?

Energy Dome and Alliant Energy's 200MWh long-duration energy storage (LDES) project in Wisconsin, US, has been approved by state regulators. The Ministers of Energy and the Environment in Lithuania have approved an additional €37 million (US\$43 million) for an energy storage capex grant scheme, while Trina Storage has secured orders in the country.

What is the scope of energy storage in the PRC?

“[https://www.gov.cn/jingji/2023/01/03/content\\_1881111.htm](https://www.gov.cn/jingji/2023/01/03/content_1881111.htm),” People's Government of the PRC, 3 Jan 2023, at [https://](https://www.gov.cn/jingji/2023/01/03/content_1881111.htm) The scope includes two categories: dispatch-controlled new type energy storage and self-used new type energy storage by power stations.

Is particle ETES a suitable energy storage technology?

Comparing economic potentials of energy storage technologies indicates that particle ETES is a suitable technology in the range of 10–100 h of energy storage and can complement battery storage to support grid resilience with renewable integration. Table 1.

What is the 14th five-year plan for energy storage?

The “14th Five-Year Plan” has specified development goals for energy storage also on the provincial level. During the “14th FYP” period, 25 provinces and cities plan to complete 77.65 GW new type storage installation. That scale is more than twice the “14th FYP” target (30 GW) set by the NEA.

How many GW of energy storage applications has Argentina received?

Argentina has received more than 1.3GW of energy storage applications for its first battery energy storage system (BESS) tender. Chinese lithium-ion OEM Gotion High-Tech has launched manufacturing of its 5MWh BESS units at its manufacturing facility in Göttingen, Germany.

Why is community engagement important in battery energy storage system development?

Community engagement is an important part of battery energy storage system (BESS) project development. Not engaging with a community or even engaging minimally can stop a project dead in its tracks, delaying development.
