

Solar Storage Container Solutions

Energy storage project investment and operation company

Overview

What is an energy storage project?

An energy storage project is a cluster of battery banks (or modules) that are connected to the electrical grid. These battery banks are roughly the same size as a shipping container. These are also called Battery Energy Storage Systems (BESS), or grid-scale/utility-scale energy storage or battery storage systems.

Are investors looking to acquire energy storage projects?

Investors are looking to acquire energy storage projects using robust energy storage technologies. Don't let a lack of support, experience, and transparency lead to a failure to execute. Momentum Energy Storage Partners has over a gigawatt of battery storage projects in development across the US.

Where are the energy storage projects being built?

The energy storage projects will be located at three existing SCE power substations: 225 MW at Springvale Substation in Big Creek-Ventura, 200 MW at Hinson Substation in the Los Angeles Basin, and 112.5 MW at Etiwanda Substation in the Los Angeles Basin.

What is the largest European battery-based energy storage project?

In May 2023, we launched our largest European battery-based energy storage project at the Antwerp platform in Belgium. With its 40 containers, the site will develop a capacity of 75 MWh, which is equivalent to the daily consumption of almost 10,000 homes.

Is momentum energy storage Partners a failure to execute?

Don't let a lack of support, experience, and transparency lead to a failure to execute. Momentum Energy Storage Partners has over a gigawatt of battery storage projects in development across the US. Our expertise in energy storage differentiates us from other developers.

Who is momentum energy storage partners?

Momentum Energy Storage Partners has over a gigawatt of battery storage projects in development across the US. Our expertise in energy storage differentiates us from other developers. We are your partner throughout the entire process from development to commissioning. We continue to support our investors through the entire process.
