

## Solar Storage Container Solutions

# Finland container generator manufacturer

## Overview

---

Why should diesel power Finland partner with Lagercrantz?

“Partnering with Lagercrantz, who is a long-term and experienced owner, will provide a strong platform for Diesel Power Finland’s continued development and growth.”, says Mika Peltola, Managing Director of Diesel Power Finland. A fire pump acts as the heart of an extinguishing system, ensuring that there is enough water to put out any fire.

Who is diesel power Finland?

The beginning to Diesel Power Finland story was written in 2012. Five guys had a thought that things can be done better when it comes to selling and maintaining generating sets and fire pumps. They wanted to listen to and care about their customers. The aim was to build long lasting relationships with the customers.

Which genset containers are available?

All genset containers are also available with an option for -40°C and most variants can be upgraded for +45°C. A broad range of options, both mechanical and electrical, are available to ensure that our containers meet the project requirements. For example, we offer several heat recovery configurations and exhaust after treatment systems.

Why should you choose Jenbacher containerized gas power generation solutions?

Jenbacher containerized gas power generation solutions offer a variety of benefits to our customers, thanks to distinctive product features: See for yourself.

What size generator container do I Need?

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height depend on engine type, the application

(power generation only or CHP) and ambient conditions. Customized sizes to accommodate special project requirements are available on request.

What types of generators and gensets are available?

We ship all size of HFO, diesel and natural gas generators and gensets worldwide. Power generation systems and engines provide also decentralized natural gas and oil energy supplies for hospitals, greenhouses, airports and oil rigs. Gensets are available in the 0.3-9.5MW electrical output range for an individual unit.
