# GZDW DC battery cabinet battery is out of power

## Overview

---

What is gzdw series of high frequency switching dc power supply?

ApplicationGZDW series of high frequency switching DC power supply. As a closing switch and relay protection device provides DC operation power and signal power control and as special equipment by DC power supply, widely used in various types of small and medium-sized power plant, substation ( the ) place of electrified rail.

Can gzdw series be custom?

Can be custom. Description: GZDW series is suitable for substations, power plants, industrial and mining enterprises, electrified railways and high-rise buildings of different voltage levels. It can be used as operating power and control power for high-voltage switches, relay protection and automatic devices.

What is gzdw series?

Main function: bus insulation,data collect and display and charge management. Cabinet color: Standard color is RAL7035. Can be custom.

Description: GZDW series is suitable for substations, power plants, industrial and mining enterprises, electrified railways and high-rise buildings of different voltage levels.
