How do GFCI circuit interrupters work?

Ground fault circuit interrupters (GFCI) guard against accidental electrocution by monitoring the current traveling to and from an electrical load. A difference in current greater than 5 mA triggers a manually resettable electrical

disconnect which quickly isolates power from the load.

Do fortune Electrical Corporation sell circuit breakers?

The circuit breakers are available in a range of poles to meet different requirements and are priced fairly and affordably. In addition to circuit breakers, Fortune Electrical Corporation also offers other electrical products to meet customers' needs.
