Home inverter battery

12.8V6Ah

Nominal voltage (V):12.8
Nominal capacity (ah):6
Rated energy (WH):76.8
Maximum charging voltage (V):14.6
Maximum charging current (a):6
Floating charge voltage (V):13.6~13.8
Maximum continuous discharge current (a):10
Maximum peak discharge current @10 seconds (a):20
Maximum load power (W):100
Discharge cut-off voltage (V):10.8
Charging temperature (°C):0~+50
Discharge temperature (°C): -20~+60
Working humidity: <95% R.H (non condensing)
Number of cycles (25 °C, 0.5c, 100%dod): >2000
Cell combination mode: 32700-4s1p
Terminal specification: T2 (6.3mm)
Protection grade: IP65
Overall dimension (mm):90*70*107mm
Reference weight (kg):0.7
Certification: un38.3/msds

Overview

Do all batteries work with a home power inverter?

Not all batteries work equally well with every type of home power inverter. Ensuring compatibility between your inverter and battery is critical for a successful energy storage system. For off-grid inverter systems, lead-acid batteries are often the go-to choice due to their affordability and long-established use.

What is an inverter battery?

An inverter battery is a crucial component in backup power systems, specifically designed to store energy for inverters to provide power during electricity outages. It functions by storing Direct Current (DC) power, which the inverter then converts into Alternating Current (AC) power to run household appliances.

What are the different types of batteries for home power inverters?

Batteries are the backbone of any residential energy storage system, providing backup power when needed. The most common battery types for home power inverters are lead-acid and lithium-ion. Understanding the benefits and limitations of each will help you make an informed decision based on your power needs. [Lead-Acid Batteries](#).

How does an inverter work?

The inverter turns grid-supplied energy into direct current, and the battery stores this direct power. When there is a power outage, the inverter pulls electricity from a battery and converts it to alternating current to power all home loads. [Read More: Buy A New Ups Instead of Replacing The Old Ups Battery, Learn Why?](#)

.

Why is a battery important in an inverter?

The battery is very important in the life of an inverter. The inverter turns grid-supplied energy into direct current, and the battery stores this direct power. When there is a power outage, the inverter pulls electricity from a battery and converts it to alternating current to power all home loads.

Do Inverter Batteries need to be replaced?

Because each family has a unique power need, you must choose your inverter battery appropriately. The battery is the core of every backup power system. Depending on its usage, performance, maintenance, and upkeep, an inverter's battery may need to be replaced twice or more over its lifespan.

Home inverter battery

Best inverter batteries: Top 10 picks for power ...

Mar 6, 2025 · Explore the 10 best inverter batteries for reliable backup, ensuring efficiency, durability, and long-lasting performance for homes and offices.

Why Lithium Battery for Home Inverters Are the Best Choice

Feb 12, 2025 · When it comes to home inverter battery solutions, a lithium battery for a home inverter is the best choice due to its superior lifespan, higher efficiency, faster charging, low ...

8 inverter batteries to SUPERCHARGE your home ...

Oct 12, 2021 · Batteries are available in different capacities and can be produced by different technologies. A 150Ah, 100Ah and 200Ah rated inverter batteries ...

Top 10 Inverter Battery Brands in India 2025

Jun 13, 2025 · Looking for the best inverter battery in India? Check out the top 10 brands in 2025 offering powerful, durable, and efficient solutions for reliable power backup.

Amazon : Inverter With Battery For Home

Okaya Inverter with Battery Combo for Home, Office & Shops, ATSW1175 12V Pure Sine Wave Inverter 925VA with OPSJT19060 160Ah Inverter Battery , Warranty: 36 Months (Inverter) & 60 ...

Residential Grid-Tie Battery Backup (Hybrid) Inverters

Residential Grid-Tie Battery Backup (Hybrid) Inverters A residential hybrid inverter, also known as a multi-mode inverter, is an advanced type of inverter that can manage power input from both ...

Which Inverter Batteries Are Suitable For Home Use

4 days ago · Types of Inverter Batteries for Home Use There are multiple types of batteries. The tall tubular batteries are generally recommended for household use. Here are the insights into ...

2025's Best Home Inverters and Batteries: Never Lose Power!

Mar 6, 2025 · Find the best home inverters and batteries for reliable, efficient energy solutions. Power your home with top-quality products for seamless, uninterrupted energy.

Deye Official Store

Why Choose An Inverter With Inbuilt Battery

An inverter with inbuilt battery is an all-in-one device combining both the inverter and a rechargeable battery within a single unit. This integration eliminates the need for bulky external ...

2025's Best Home Inverters and Batteries: Never Lose Power!

Mar 6, 2025 · Best home inverters and batteries are essential for ensuring a reliable power supply, especially during outages. They provide efficient energy storage, reduce electricity ...

Buy Lithium Ion Inverter Battery At Best Price In ...

5 days ago · Buy UTL Lithium Ion inverter batteries at unbeatable price in India. It's loaded with amazing features like fast charging, Zero maintenance, no ...

Best Battery For Home Inverter [Updated On

Aug 10, 2025 · This product's journey from last year's mediocre performance to today's standout capability demonstrates how far home inverter batteries have come. Having tested multiple ...

Battery Choices for Home Power Inverters: What ...

Sep 19, 2024 · With so many battery options available, professionals emphasize selecting the type that best suits your specific inverter--whether it's an off-grid ...
