# Honiara Power Station Generator Design

## Overview

---

Who supplied the generators for the Gizo power station upgrade project?

Northpower of New Zealand was awarded the contract to supply the Generators for the selected outstations. The generators were tested and configured in Honiara and shipped out to the provinces in 2016. a. Gizo power station upgrade project.

What's new at Solomon power station?

The project was completed by MAN diesel for over SBD120m. The new station has been commissioned and is currently in operation. Furthermore to improve the reliability Solomon Power invested in a new 11 kV switchboard, two 1.6 MW diesel generators and two new power transformers at Honiara Power Station.

Which areas of Honiara are being extended?

The project to extend the 11 kV and 415 V network in the Tinge Ridge, Baranamba/Ohuiola, Tasahe B, 7 Up, Green Valley/Mt Austin and Lungga/Markwarth, Tinge and GBR areas of Honiara have been completed. The extensions at Redbeach and Foxwood are in progress.

What is a noro power station upgrade?

Noro power station upgrade works Noro power station was built and commissioned in the late 80's and have not undergone major maintenance since. This project involves major refurbishment of the station totaling over \$3m and the installation of 3 new 500KW generators and associated switchgears and transformers.

What happened to Noro power station?

Noro power station was built and commissioned in the late 80's and have not undergone major maintenance since. This project involves major refurbishment of the station totaling over \$3m and the installation of 3 new

500KW generators and associated switchgears and transformers. The upgrade of the building was completed late December 2016.

### Final REPORT 10.07.20b.pdf

Dec 17, 2020 · Power generation in Honiara was mainly from the Lungga Power Station and in particular from the new 10MW plant using the 4x2.5 MW MAN Diesel generators. The balance ...

### Honiara Power Station generation upgrade project

This project includes the supply and installation of 2 new 1.5 MW Caterpillar generators at the Honiara Power Station. This project is aimed at providing at least a G-1 level of supply reliability.

### Solomon Islands Electricity Authority Annual Report 2016

Commissioned black start facility on the two generators H1 and H2 at Honiara Power Station  
Commissioned three new 11 kV and 415 V network extensions in Honiara Progressed the ...

### MAN Energy Solutions build Lungga Power Station on the

...

Aug 19, 2025 · The power station was designed with 4 x MAN 9L27/38 generator sets running on

diesel fuel. Each generator will produce 2.5 MWe.  
MAN was awarded the EPC contract in ...

## Variable Renewable Energy Integration Studies

Mar 15, 2023 · Additionally, two other generators labelled H1 and H2 are located at Honiara Power Station and operate on the 0.415kV. These are connected to the grid via separate ...

## Ex-post evaluation\_Solomon\_final.doc

Dec 19, 2013 · Summary This project aimed to establish a stable power supply system in Honiara city by developing generating facilities. The relevance of this project is high, as it is consistent ...

WORKING PRINCIPLE

## Solomon Islands Electricity Authority trading as ...

Apr 26, 2023 · The largest electricity network in the Solomon Islands (both in terms of geographical coverage and electricity sales) is in Honiara, with a maximum demand of ...

## Honiara new energy storage power station scale

9L27/38 generator sets running on di sel fuel. Each generator will produce 2.5 MWe. MAN was awarded the EPC contract in 2014 meaning it was responsible for the power plant design, the ...

## Honiara large shared energy storage power station

The project was completed by MAN diesel for over SBD120m. The new station has been commissioned and is currently in operation. Furthermore to improve the reliability Solomon ...
