# How many watts is a good outdoor power supply in Lima

**12.8V6Ah**

Nominal voltage (V):12.8  
Nominal capacity (ah):6  
Rated energy (WH):76.8  
Maximum charging voltage (V):14.6  
Maximum charging current (a):6  
Floating charge voltage (V):13.6~13.8  
Maximum continuous discharge current (a):10  
Maximum peak discharge current @10 seconds (a):20  
Maximum load power (W):100  
Discharge cut-off voltage (V):10.8  
Charging temperature (°C):0~+50  
Discharge temperature (°C): -20~+60  
Working humidity: <95% R.H (non condensing)  
Number of cycles (25 °C, 0.5c, 100%dod): >2000  
Cell combination mode: 32700-4s1p  
Terminal specification: T2 (6.3mm)  
Protection grade: IP65  
Overall dimension (mm):90\*70\*107mm  
Reference weight (kg):0.7  
Certification: un38.3/msds

## Overview

---

How many types of power outlets are there in Peru?

They are labeled accordingly. In Peru there are three types of power outlets. They accept three types of plug: two-pronged plugs with flat, parallel blades; plugs with two round prongs; and plugs with two flat prongs and one round prong. It is also common to find power outlets that accept more than one of these plug types.

What is the power supply voltage in Peru?

In Peru, the supply voltage is 220 volts at 60 hertz. For most European devices, as well as in India, Australia and many African countries a voltage of 220 – 250 volts applies, so there will be no problem plugging your electronic item into a power outlet in Peru.

Do you need a power outlet in Peru?

Here's what you need to know about charging on the go: Hotels and Hostels: Most accommodations in Peru, from budget hostels to luxury hotels, provide power outlets compatible with Types A, B, and C plugs. Hotels catering to international guests may even provide universal power outlets, but having your own adapter is always a good backup.

What power plugs are used in Peru?

Ok, you are going to Peru, you will use power plugs/outlets similar to the following picture (s): (includes Lima, Arequipa, Huaraz, Iquitos, Trujillo, Cajamarca, Puno.) Voltage used in Peru is 220V and the electrical frequency is 60Hz. (more details after you choose where are you plugs from.) Machu Picchu.

What is the electricity supply in Peru?

The electricity supply in Peru is 220 volts and 60 Hertz. If you need to use a 110-volt appliance in Peru, you must use an adapter, although you should

remember that in the case of laptops and digital cameras, most modern devices are dual voltage, and will take both 110 and 220 volts.

What is the electrical voltage in Peru?

The voltage, electrical outlets and plugs in Peru all offer potential differences, none of which are difficult to get around if you want to use electrical appliances — laptops, cameras, cellphones etc. — bought in a different country. The electrical current in Peru is 220 volts with a standard frequency of 60 hertz.
