How much is the generator of the power station worth

Overview

The right thumb rule for industrial generators is \$300 to \$450 per KW, but it can vary according to your generator's condition. How much is a generator worth?

If some or several of these factors are unfavorable, the price tag can easily land at \$0, and if you're extremely lucky, your generator could have a value of upwards of \$100,000+. But to set some expectations, realistically, most generators Iron Flag Power Systems comes across have a value in the range of \$1,000 – \$20,000.

Should I Sell my used generator?

When you begin determining your selling options, take into consideration these three factors. Although your generator may no longer benefit your business, it may be exactly what another company needs. The best way to find out your used generator values is by contacting Woodstock Power.

How do I know if my used generator is a good value?

Although your generator may no longer benefit your business, it may be exactly what another company needs. The best way to find out your used generator values is by contacting Woodstock Power. We'll examine your used generator and quickly respond to any questions you may have.

Where can I buy a used generator?

Regardless of whether you have a diesel, natural gas, portable, or three-phase generator, you've come to the right place! At Woodstock Power, we buy and sell all types of used generators that are in good working order. Often, the make and model you own will help determine your used generator values.

Is a 50kw cat a good generator?

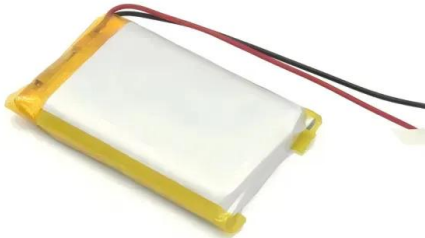

Don't be surprised if you find that a 50kw CAT is worth a lot more than a 100kw Generac. Summary: CAT is best, then Cummins, Kohler, and MTU. The

lower-quality brands are Katolite, Olympian, and Generac. The final consideration is the number of hours the generator was used.

How do you evaluate a used generator?

When we assess used generator values, we look at the number of hours logged on the odometer of the generator to determine a reasonable price. If the generator you want to sell was used sparingly during emergency power outages or as a backup, it's likely to be worth more than if it was operating on a regular basis.
