

## Solar Storage Container Solutions

# How to ship non-standard energy storage containers

## Overview

---

What are energy storage systems (ESS)?

According to the International Energy Agency, energy storage systems (ESS) will play a key role in the transition to clean energy. Sometimes referred to as “energy storage cabinets” or “megapacks”, ESS consist of groups of devices that are assembled together as one unit and that can store large amounts of energy.

What is a battery energy storage system?

Battery energy storage systems (BESS) are the most common type of ESS where batteries are pre-assembled into several modules. BESS come in various sizes depending on their application and their usage is expected to rise considerably in coming years.

What is a battery energy storage system (BESS)?

The transportation of a Battery Energy Storage System (BESS) is one of the most important-but widely disregarded-steps for the completion of the project. Lithium-Ion Phosphate batteries (LFP) are designed to provide high amounts of power, but they can produce high amounts of heat that cause fires.

Do you need a containment system?

Containment is recommended as far as possible and calling in an expert to advise. Certain units may be equipped with safety systems that could allow the crew or someone ashore to monitor the units and be alerted before a dangerous situation develops.

Do I need a MSDS when shipping a Bess battery?

Please note that MSDS is not only required by batteries when shipping a BESS, but the other components of BESS including enclosure, battery cells, packs, and racks. The most important thing needs to be considered in lithium-based

batteries transportation packaging is to prevent short circuits.

Do I need an MSDS when shipping a Bess?

emergency procedures. The MSDS is required by most of the dangerous goods transportation firms to properly manage and control the risk during the transportation. Please note that MSDS is not only required by batteries when shipping a BESS, but the other components of BESS including enclosure, battery cells, packs, and racks.
