

How to use wireless outdoor AP base station to save power

Overview

How does an AP indicate support for power-save mode?

The AP indicates support for this mechanism by advertising this capability in beacon and probe response and association/reassociation response frames. As in legacy power-save mode, an STA sets the Power Management bit in a Null frame to indicate to the AP that it is in power-save mode.

How do APS save a frame in power save mode?

Further power savings can be achieved by the STA when it indicates to the AP that it is entering power save mode and shutdown its receive path. The AP stores frames destined to an STA in power save mode and sends them to the STA when requested to do so.

Does Ubiquiti AP-outdoor support Poe?

Ubiquiti Networks, Inc. The UniFi AP-Outdoor supports Passive PoE, which works with the included PoE adapter. If you want to power the UniFi AP-Outdoor from an 802.3af compliant switch, Ubiquiti Networks offers the optional Instant 802.3af Adapter to instantly transform any PoE device into a fully 48V 802.3af compliant product.

Does the unifi AP-outdoor work with a Poe adapter?

The UniFi AP-Outdoor supports Passive PoE, which works with the included PoE adapter. If you want to power the UniFi AP-Outdoor from an 802.3af compliant switch, Ubiquiti Networks offers the optional Instant 802.3af Adapter to instantly transform any PoE device into a fully 48V 802.3af compliant product.

How does a STA enter power-save mode?

In this scheme, an STA enters power-save mode by sending a Null frame to the AP with the Power Management bit set. From then on, the AP stores all packets destined to the STA in a per-STA queue and sets the TIM field in the beacon frame to indicate that packets destined for the STA have been queued

at the AP.

How do I power the unifi AP-outdoor from an 802.3af compliant switch?

If you want to power the UniFi AP-Outdoor from an 802.3af compliant switch, Ubiquiti Networks offers the optional Instant 802.3af Adapter to instantly transform any PoE device into a fully 48V 802.3af compliant product. Page 7 Wall Mount Bracket, and slide the UniFi AP-Outdoor down until it locks into place. 3.
