

## Solar Storage Container Solutions

# Huawei photovoltaic panels in the wild in Manila

## Overview

---

Will Huawei provide a 4.5gwh Bess for Meralco Terra solar project?

Huawei has secured a supply agreement to provide a 4.5GWh BESS for the Meralco Terra Solar project in the Philippines.

Does Huawei have a Bess solution for Terra solar?

Regarding large-scale BESS deployment, Huawei recently provided its Smart String ESS LUNA2000-2.0MWH-4HL batteries combined with its Luna 2000-200KTL-HO inverters for a 204MW system in Romania. While the company did not explicitly mention the BESS solution for the Terra Solar project, it did provide details on the features it will include.

What will mterra Solar do for the Philippines?

The agreement covers the entire 4,500 MWhr capacity of the MTerra Solar project. This collaboration reinforces the Philippines' potential to be a global leader in renewable energy innovation, with MTerra Solar set to become the world's largest integrated solar PV and battery storage facility.

How much solar power will be built in Bulacan & Nueva Ecija?

The project will include 3.5GWp of solar PV generation capacity and a 4.5GWh BESS to be built across 3,500 hectares of land in the two provinces of Bulacan and Nueva Ecija. It will begin commercial operations in two phases, with the first scheduled for February 2026 and the second for February 2027.

What is Huawei's biggest Bess project?

To date, this is Huawei's biggest BESS project for an integrated solar photovoltaic (PV) and BESS facility. The agreement covers the entire 4,500 MWhr capacity of the MTerra Solar project.

What is Huawei's largest energy supply agreement?

The BESS supply agreement marks Huawei's largest to date. Construction started on the Meralco Terra Solar solar-plus-storage project in November 2024. The site is claimed to be the world's largest integrated power plant that combines the two technologies.
