Indian PV module selling prices

Overview

The average selling price (ASP) of Indian-made DCR-compliant modules increased in Q1 2025, fueled by strong demand from government programs like PM Surya Ghar and PM KUSUM and rising component costs. What is India solar PV module market?

*Definition: India solar PV module market refers to the market for solar photovoltaic modules in India. As renewable energy generation emerges as a major focus area for the country, the demand for solar PV modules has been growing rapidly.

How will India's solar industry respond to rising PV module prices?

The rise in PV module prices presents challenges but also an opportunity for India's solar industry to strengthen and innovate. By optimizing costs, enhancing local partnerships, and educating consumers on long-term benefits, solar EPC companies can adapt effectively.

Why are solar PV modules important in India?

Solar PV modules are a key component for setting up solar power plants and rooftop solar installations across industries, commercial establishments and households. Key players in India are manufacturing solar PV modules to cater to this growing domestic demand. Yash Doshi is a Senior Management Consultant.

How much do solar panels cost in India?

Currently, the PV panel price varies depending on the brand, efficiency, and type of solar panels. Monocrystalline panels, known for their high efficiency, are priced higher than polycrystalline panels. As of 2025, the price of solar panels in India ranges from ₹25 to ₹50 per watt, making solar energy more affordable for households and businesses.

How much did India import solar cells in Q3 2024?

India imported solar cells and modules amounting to \$986.5 million (~₹82.6 billion) in Q3 2024, up 27.3% QoQ from \$774.9 million (~₹64.6 billion). Imports dropped 18.8% YoY from \$1.2 billion (~₹101.6 billion).

Are photovoltaic panels a good investment for India?

Solar energy has become a cornerstone of India's renewable energy drive, and photovoltaic (PV) panels play a critical role in this transformation. As more people embrace green energy, understanding photovoltaic panels—their price, benefits, and challenges—has become essential for making informed decisions.

Indian PV module selling prices

PV Price Predictions: Assessment of solar ...

Dec 16, 2022 · Two years from now, the prices of solar cells manufactured in India shall be the driver for module price reduction. In financial year 2022, ...

Average Cost of Large-Scale Solar Projects Dropped by 26

Sep 12, 2024 · The average cost of large-scale solar projects in India fell 2% quarter-over-quarter (QoQ) and 25.7% year-over-year (YoY) in the second quarter (Q2) of 2024. Since Q1 2023, ...

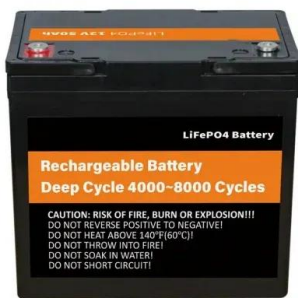

India Solar PV Module Market Size and Price Trends, [2033]

India Solar PV Module Market Size and Share: The India solar PV module market size reached USD 7.94 Billion in 2024. Looking forward, IMARC Group expects the market to reach USD ...

Top 10 Solar Panel Manufacturers in India 2025

Aug 13, 2025 · A high-quality solar panel ensures better efficiency, longer lifespan, and maximum return on investment. Trusted manufacturers provide advanced technology, industry ...

Impact of increasing PV module prices on Indian ...

Sep 13, 2021 · Modules account for a huge percentage of a project's total costs, and given that independent power providers have lower margins in the Indian ...

Best Solar Modules in India (2025) , Complete ...

Jun 9, 2025 · A solar module, commonly called a solar panel, is a collection of photovoltaic (PV) cells that convert sunlight into electricity. Modules come in ...

India module prices fall in line with international ...

Aug 24, 2023 · Prices of domestically produced modules have been falling in line with international prices. July end prices for mono-PERC modules were ...

India's PV project costs fall 7.1% in Q1 2024

Jun 7, 2024 · An oversupply of solar materials and products has led to reduced sales prices for both Chinese and Indian solar modules. However, due to limited domestic capacity for solar ...

Solar PV Panels Cost in India 2025 , Complete Pricing Guide

Jul 21, 2025 · Find out the 2025 solar PV panels cost in India. Get insights on installation charges, panel types, per kW pricing, and ROI with our expert guide. solar pv cost

India's solar energy policies and 2025 market outlook

Jan 24, 2025 · With the advancement of government tenders and incentive measures, India's PV market is expected to continue growing, contributing to the global energy transition. In this ...

Solar PV Module Trends: Quarterly Domestic Reports

The Quarterly report on PV manufacturing provides a detailed account of key developments in India's domestic solar manufacturing sector during the most recent quarter. It presents player ...

Solar module prices hovering at all-time lows - ...

Apr 23, 2024 · As solar module prices continue to fall, pvXchange founder Martin Schachinger explains how price pressure could increase in the weeks ...

Solar Electricity Cost in India: Key Facts & Figures

May 30, 2024 · Solar electricity cost in India for residential, commercial & industrial setups - Latest prices, incentives & financing options explored.
