Integrated sensor solar light 90 watts

Overview

This 90W all in one solar street light can provide 6500k daylight white as it equipped with 160pcs high quality LED beads and 12.8V/36Ah battery which life up to 50,000 hours. It provides higher lumens with lower energy consumption. Excellent as an area light, parking lot light.

90 watts all in one solar street light comes with mono solar panel, aluminium pole, pir motion sensor, remote controller and replaceable lifepo4 battery, all in one integrated design. What is a 90W solar street light?

The 90W all in one solar street light built-in 54Ah high capacity 12.8V lithium iron phosphate battery which enhanced safety, strong thermal stability, tolerance to abuse, green, non-toxic, non-polluting, high current rating and 2000 cycle life.

How many lumens can a solar street light produce?

This 90W integrated all in one solar street light can produce 11000 lumens as it equipped with 160pcs high quality LED beads and 12.8V/54Ah battery which life up to 50,000 hours. It provides higher lumens with lower energy consumption. Excellent as an area light, parking lot light, patio light or yard light. Main Features:.

How many square meters does a solar street light cover?

The solar conversion rate is up to 22%, and it can be used continuously for 5-7 rainy days after 6-8 hours of charging, and the irradiation area reaches 70-90 square meters. Effectively ensure the safety of porches, backyard, garden, fence, stairs, pathway. The 90W integrated all in one solar street lights cover a 180 degree angle, 1610sq.ft area.

Are solar street lights waterproof?

Solar street lights IP65 waterproof grade, rainproof, lightning protection and dustproof, die cast aluminum anti-UV lamp body and new inner design housing with individual sealed boxes for batteries, controller and outer sealed rubber ring protect from water leaking.
