# Is it safe to use outdoor power supply in Casablanca Morocco

## Overview

---

In Casablanca, they use Type C and E power plugs and outlets. The voltage is 220V, and the frequency is 50Hz. So, you'll need a travel adapter in Casablanca. What are the different types of power plugs in Morocco?

In Morocco, there are two main types of power plugs and outlets: Type C and Type E. Type C: Type C plugs have two round prongs on either side of the plug, commonly known as Euro plugs. Mostly used in Europe, South America, and Africa. Type C outlets can be fit with either Type E or Type F plugs.

Do Europeans need a travel adapter in Morocco?

Europeans do not need a travel adapter or transformer when traveling to Morocco. Most device plugs will work with the outlet types in Morocco. Also, the voltage in Morocco is the same as in Europe. What Outlet does Morocco Use?

Type C plug sockets are used in Europe, Africa and Asia. They have two round pins and no grounding pin.

What type of electrical outlet does Morocco use?

Morocco primarily uses Types C and E electrical outlets which have two round prongs. Type C has prongs aligned in a semicircle shape, while Type E has prongs offset side by side. Most outlets will be Type C. The standard voltage in Morocco is 220-240V. This is much higher than the 100-120V used in North America and some other countries.

Do you need a voltage converter in Morocco?

The good news is you can charge many basic electronics like cell phones, tablets, and laptops without a voltage converter in Morocco. Most chargers and built-in batteries today are dual voltage, meaning they can safely handle 100-240V. For these items, you just need a Type C or E adapter so the plugs fit the outlets.

## What is the Best Travel Adapter for Morocco in 2025?

In Morocco, power plugs and sockets (outlets) of type C and type E are used. The standard voltage is 220 V at a frequency of 50 Hz. Morocco is a captivating North African country with a rich history, diverse landscapes, and a vibrant culture.

## Why should you carry a spare adapter in Morocco?

Carry spare adapters in case of any damage or loss, and they make great gifts for fellow travelers! With Morocco using Type C and E outlets and operating on 220-240V, packing the proper electrical adapters and voltage converters ensures your important electronics can be charged and used smoothly.
