

## Solar Storage Container Solutions

# Juba Sine Wave Inverter BESS Company

## Overview

---

How much power can a 20MW solar plant produce in Juba?

The 20MW solar plant can generate sufficient power to supply electricity to up to 16,000 households in Juba, significantly reducing energy costs and bolstering grid reliability, said the project's developer.

What is Bess & how does it work?

"The accompanying BESS [14MWh] stores energy generated by the solar plant, enabling on-demand power supply, stabilising the grid and enhancing the reliability of renewable energy." The BESS includes smart inverters, smart transformers (STSS) and smart loggers.

Who financed the Bess project?

The BESS includes smart inverters, smart transformers (STSS) and smart loggers. The project was developed and financed in-house by Ezra Construction and Development Group, a subsidiary of the Ezra Group, a family-run conglomerate based in South Sudan.
