Kyiv ups uninterruptible power supply company

Overview

Where can I buy UPS - uninterruptible power supplies?

UPS - uninterruptible power supplies are available at Mouser Electronics, an authorized distributor for many leading manufacturers including APC, Phoenix Contact, SOLA, and Tripp-Lite. Please view our selection of UPS uninterruptible power supplies below.

Should you install an uninterruptible power supply system?

Installing an uninterruptible power supply system is advisable during short-term power outages and power surges, but the capacity of the UPS batteries is not enough for long-term operation of the equipment in the absence of a centralized power supply.

What is uninterrupted power supply?

The task of uninterrupted power supply is to gain time for a regular shutdown of energy consumers and save data. In the event of a prolonged failure of the main network, the uninterruptible power supply system (SGE) maintains the supply of electricity to the pantographs by autostarting the diesel generator set (DGU) and switching the load to it.

What is uninterrupted guaranteed power supply?

Unstable power supply and power surges can interfere with electrical equipment and damage sensitive electronics. For such cases, a reliable system of uninterrupted guaranteed power supply is needed, which will protect electrical appliances and provide an alternative power supply.
