# Kyrgyzstan energy storage product import tariffs

## Overview

---

Why is Kyrgyz import tariff rising?

With the Kyrgyz Republic's entry into the EAEU, the average import tariff rate increased from 5.04 percent to 9.4 percent, according to Ministry of Economy and Finance estimates. With member countries opening their consumer markets to one another, small Kyrgyz producers have struggled against greater competition from industrial-scale competitors.

How much energy does Kyrgyzstan export?

of total energy supply in 2021. Kyrgyzstan has historically been an energy deficit nation, with net energy exports amounting to 40.6 of total energy supply in 2021. Energy exports accounted for roughly 4.3%, 102.9 million USD\$, of Kyrgyzstan's export revenue, generating % of GDP in 2021. Energy imports, on the other hand, accounted for 8.0%, 962.

Are Kyrgyzstan's energy tariffs affordable?

Kyrgyzstan's energy tariffs are affordable compared to those of other countries in the region. However, affordability is still a concern for the poorest consumers, especially given that social assistance is currently not well targeted to help the poor afford electricity and heat. Consumer.

Is Kyrgyz Republic a member of the WTO?

The Kyrgyz Republic is also a member of the WTO. In July 2018, the Kyrgyz Republic introduced beneficial tariffs for import of vehicles manufactured after 2008 from non-EAEU countries resulting in the import of more than 28,000 cars for private use in 2019, predominantly from Lithuania, Korea, Georgia, and the United States.

How does a tariff increase affect poverty in Kyrgyz Republic?

World Bank, "Poverty and distributional impact of electricity and heating tariff increases in the Kyrgyz Republic: Analysis based on household survey data,"

(2016). Combining a reduced social tariff consumption threshold with a tariff increase results in a larger deficit reduction than what can be achieved with the threshold reduction alone.

Why is energy important in the Kyrgyz Republic?

In the Kyrgyz Republic, energy is also a source of revenues when it can be produced in sufficient quantities to be exported, thereby helping to diversify the economy and open new markets. Today, the Kyrgyz Republic is not making the most of its endowments and potential.
