Laos 5g base station service

Overview

Where will 5G be available in Laos initially?

The 5G service will be initially provided in some areas of the capital Vientiane, including parts of Chanthabouly District and areas near the National University of Laos. A second phase will then bring the network to major provinces around the country, although it's not clear when this will be.

When did Lao Telecom start testing 5G?

Lao Telecom was first out of the blocks after an announcement on 8 October that it had begun trialling its 5G system.

Are Lao Telecom and Unitel testing 5G technology?

Both Lao Telecom and Unitel were reported to be testing or planning to test 5G technology as long ago as last October. However, Lao Telecom (LTC) was the first to announce that it had begun trialling its 5G system on 8 October.

What services does Lao Telecom offer?

Lao Telecom is an integrated telecommunications provider offering wireline and wireless services in Laos since 1996. Vietnam's Viettel announced plans to test 5G in Laos last year through its Laos subsidiary, Unitel.

Has Viettel tested 5G in Laos?

While Viettel announced plans to test 5G in Laos last year through its Laos subsidiary, Unitel, no tests have been confirmed yet. Unitel is the biggest network operator in Laos with over 3 million subscribers or more than 56 percent of the country's telecommunications market.

Who is the largest network operator in Laos?

Unitel is the biggest network operator in Laos, with over 3 million subscribers or more than 56 percent of the country's telecommunications market. Both

major operators in Laos have been trialling 5G, but it's the state-owned Lao Telecommunications Company (LTC) that has won the race to officially launch a 5G network in the country.
