# **Lisbon Grid Energy Storage Project**

## Overview

---

The government of Portugal has announced plans to invest €400 million (US\$466 million) to improve its grid management capabilities and increase its battery energy storage system (BESS) capacity. How much will Portugal spend on energy storage & grid flexibility?

The Portuguese Ministry of Energy has allocated €99.75 million (\$107.6 million) for grid flexibility and energy storage projects which should be installed by the end of 2025. From ESS News Portugal is seeking to promote flexibility and balance its power system with energy storage as it continues to break records for solar energy production.

How much will Portugal spend on energy storage projects in 2025?

Portugal's Ministry of Energy has announced that it has allocated EUR 100 million (\$104.2 million) to 43 energy storage projects which should be installed by the end of 2025. A total of 79 applications were vying for grant support secured under the country's Recovery and Resilience Plan (RRP).

Does Portugal need energy storage?

From ESS News Portugal is seeking to promote flexibility and balance its power system with energy storage as it continues to break records for solar energy production. To this end, the country's Ministry of Energy announced on Wednesday that it has allocated €99.75 million (\$107.6 million) in a bid to support 500 MW of energy storage projects.

Why is Portugal launching a solar energy storage project?

This initiative aims to enhance the flexibility and stability of Portugal's power supply system amid its record-breaking solar electricity production. On July 31, the ministry announced the allocation of €99.75 million through a call for tenders to install energy storage projects totaling 500 MW.

What does Portugal's energy policy mean for the energy sector?

The Portuguese Ministry of Energy has allocated €100 million for grid flexibility and energy storage projects to be completed by the end of 2025. This initiative aims to enhance the flexibility and stability of Portugal's power supply system amid its record-breaking solar electricity production.

How many MW of energy storage will be added to the grid?

The successful projects will together add at least 500 MW of energy storage to the public electricity grid. The call for proposals, which is part of the country's Recovery and Resilience Plan (RRP), was launched last summer. The list of approved projects can be seen in the statement by the environment and energy ministry of energy.

## Lisbon Grid Energy Storage Project

---

### Lisbon Power Station Energy Storage Project Bidding Key

Summary: The Lisbon Power Station energy storage project bidding represents a critical opportunity in Europe's renewable energy transition. This article explores technical ...

### Solar & Energy Storage Project Engineer

Detalhes da Vaga Position: Solar & Energy Storage Project Engineer Location: Lisbon About the Role: We are working on behalf of a leading renewable energy developer in Europe to identify ...

### Portugal commits \$480 M to grid and storage , Switchgear

...

Jul 31, 2025 · Portugal will invest \$480 M (EUR400 M) to strengthen grid stability and scale battery storage, aiming for 750 MW of BESS capacity after Iberian blackout.

### Portugal awards grants to 500 MW of energy storage projects

Jan 22, 2025 · The storage procurement takes place as the nation continues to rapidly grow the share of renewable energy on its grid. In 2024,

renewables supplied 71% of Portugal's ...
