Product Model

HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions

1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity

215KWH/115KWH

Battery Cooling Method

Air Cooled/Liquid Cooled

Overview

What is a container energy storage system?

The container energy storage system helps to use and manage energy more effectively, reduce electricity bills, and can be applied in various scenarios such as peak valley arbitrage for power users, frequency regulation and peak shaving for power grids, improving new energy consumption, and improving power supply stability for power grids.

How can BMS solve the entire house electricity consumption?

One set can solve the entire house electricity consumption. Integrated with solar charging controllers, system controllers, inverters, and lithium battery dedicated management systems, BMS effectively utilizes energy storage systems to convert clean and environmentally friendly renewable energy into ecological electricity.

What is a residential energy storage system?

Residential energy storage system with modular high-voltage battery, is suitable for residential energy storage. One set can solve the entire house electricity consumption.
