**6000+** Cycle Life

## Overview

---

Who are uksol solar panels?

UKSOL is a British family-owned solar panel producer specialising in the design and manufacturing of residential and commercial solar panels. The company has made a name for itself by offering good quality solar PV panels at competitive prices.

Where are solar panels made?

It's true that most solar panels across the world are made in China, but there are plenty of British and European-based companies involved in the process too. Choosing the right solar panel manufacturer, as well as the right sized system, can seem daunting. That's where we want to help.

How many homes in the UK have solar panels?

According to the latest government data, over 1.4 million homes in the UK have installed solar panels. With a wide range of choice out there, this grand total is made up from many different solar panel manufacturers.

Who makes JA Solar panels?

JA Solar is one of the world's largest manufacturers of high-performance solar products. Their panels have gained popularity in the UK market, in part thanks to their relationship with Octopus Energy. JA Solar offers panels that deliver high efficiency at a competitive price point. Their flagship solar PV module is the DeepBlue 4.0 series.

Where can I get a quote for uksol solar panels?

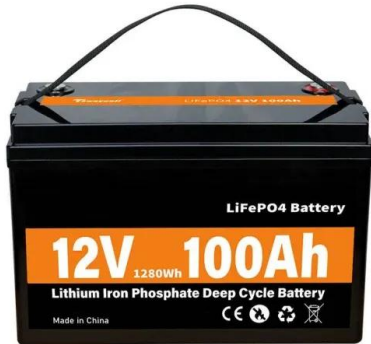

If you're interested in UKSOL panels, you can receive a quote from one of their approved installers. Aiko Solar is one of the biggest solar panel manufacturers in the world. Based in Shanghai, they specialise in the research and development of photovoltaic products.

## Who are REC Solar panels?

REC is a solar panel manufacturer based in Norway but with a presence in the UK market too. Their panels are known for being high quality and with high power outputs. REC manufactures two main types of solar panels - their premium Alpha range and the TwinPeak 5.
