# Malawi Hydropower Energy Storage Project

## Overview

---

In a bold step toward transforming Malawi's energy future, the World Bank has approved a massive \$350 million grant through the International Development Association (IDA) to support the Mpatamanga Hydropower Storage Project (MHSP)--a 358.5 megawatt infrastructure powerhouse poised to reshape the nation's energy and economic landscape. What is Malawi's Mpatamanga hydropower storage project?

The World Bank Board has approved a \$350 million grant from the International Development Association (IDA) to fund Malawi's Mpatamanga Hydropower Storage Project (MHSP). According to a Reuters report, this project is one of Malawi's largest energy investments, aiming to increase the Southern African country's generation capacity.

Will a \$350 million grant increase Malawi's power generation capacity?

The World Bank's board of directors has approved a \$350 million grant to support a large hydropower storage project in Malawi that will significantly increase the Southern African country's generation capacity.

Are hydropower projects feasible in Malawi?

Hydropower projects in Malawi are feasible from a water resources standpoint. According to the master plan level study of WB1998, cascaded development is more beneficial than single development.

Who is responsible for hydropower development in Malawi?

The Ministry of Natural Resources, Energy and Environment (MoNREE) is responsible for hydropower development in Malawi. The MoAIWD is the central institution to facilitate the development and management of water resources in Malawi.

What are some solar energy developments in Malawi?

In Malawi, solar energy developments are helping local communities maintain

sustainable energy. For instance, Bwengu Projects Malawi provides teachers in high-needs schools with solar-powered LED projectors in Bwengu, the northern countryside of Malawi.

What is the average hydropower production in Malawi?

Out of the 350 MW of installed hydropower capacity, actual production averages around 150 MW due to a combination of faulty aged installations and hydrological factors affecting the Shire River: siltation, low precipitation in the catchment.

## Malawi Hydropower Energy Storage Project

### Chithyola Hails \$350 Million Mpatamanga Power Deal: "This

...

Jun 26, 2025 · Minister of Finance Simplex Chithyola Banda has described the \$350 million World Bank grant for the Mpatamanga Hydro Power Storage Project as a game-changing ...

### Malawi to receive US \$350M for Mpatamanga Hydropower Storage Project

May 20, 2025 · Malawi is set to receive US \$350M grant approved by the World Bank Board of Executive Directors to support the development of Mpatamanga Hydropower Storage Project. ...

- All in One**  
Integrating battery packs
- Intelligent Integration**  
Integrated photovoltaic storage cabinet
- High-capacity**  
50-500kWh
- Rated AC Power**  
50-100kW
- Degree of Protection**  
IP54
- Altitude**  
3000m(>3000m derating)
- Operating Temperature Range**  
-20~60°C(Derating above 50 °C)
